The MAILING DATE of th		Dell Chism	with the correspondence addre				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status							
1)☐ Responsive to communic	cation(s) filed on						
2a)⊡ This action is FINAL .	2b)⊠ This ac	tion is non-final.					
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1654

DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, 28-29, 31-32 and 34, drawn to an animal consumable product comprising at least one indirectly available amino acid and an effective amount of a directly available amino aid, classified in class 514, subclass 2.
 - Claims 5-27, 30, 33 and 35, drawn to method of maintaining or restoring hair
 color by administering at least one indirectly available amino acid and an
 effective amount of a directly available amino aid, classified in class 514, subclass
 2.
 - III. Claim 36, drawn to a composition comprising a therapeutically effective amount of an amino acid selected from the group consisting of tyrosine, phenylalanine and mixtures thereof, classified in class 514, subclass 2.
- 2. The inventions are distinct, each from the other because:

Inventions of Group I and Group II are distinct inventions as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be use in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the animal consumable product of Group I can be used for dietary purposes irrespective of the inherent affects of tyrosine or phenylalanine.

Application/Control Number: 09/776,216

Art Unit: 1654

Inventions of Group I and Group III are distinct inventions wherein the composition of Group III does not require the components of Group I, and Group I requires components not required by Group III.

Inventions of Group II and Group III are distinct inventions wherein the composition of Group III is neither used nor made by the methods of Group II.

3. Because these inventions are distinct for the reasons given above and because the search for one group does not require the search of another group, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to B. Dell Chism whose telephone number is 703-306-5815. The examiner can normally be reached on 7:30 AM - 4:30 PM, Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on 703-306-3220. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4242 for regular communications and 703-308-4242 for After Final communications.

Art Unit: 1654

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1235.
